Introduction

Congratulations on purchasing the DiaMobile XL, a compact and mobile system for evaluating and planning rough diamonds. Once you have installed the software and the calibration data you only need to plug it into any 110/220 Volt outlet and connect it to a USB port on your PC.

**Do not connect machine to computer before software installation.**

There are 2 optional software applications for the DiaMobile XL:
1. Advisor™ - for rough planning
2. DiaVision™ - for polished grading

Please install the applications you purchased as described in this document.
Advisor Installation

1. Load the Advisor installation CD into your PC CD/DVD reader, the installation should start automatically.

If not, open My Computer, right click the CD reader where you have loaded the Sarin Installation CD and click Open. From the displayed list of files, double click Setup.exe.

2. After reading the splash message, click the button.

3. If agreeing with the license agreement, click the button.
4. Select the programs you want to install.

5. Click the Next button.

6. Ensure that the USB and power plugs are disconnected (as printed on the label).

7. Check if the machine serial number matches the number written on the disk.

   If it matches, click the Yes button.

   If it does not match, click the No button and call your Sarin technician.
Quick Installation Guide

8. Ensure that the USB and power cable is disconnected and then click the OK button.

9. Click the Install button to install the driver.

The installation was successful.

10. Click the OK button to close the message box.

11. Click the OK button to close the message box.
12. Select the language you want to install and Click the Next button.

13. Click the Next button (for future purpose).
14. Select the additional features and Click the **Next** button.

15. You have successfully installed the new software and must now restart your computer

   Click the **Finish** button to restart your computer.

16. Connect the DiaMobile XL to a 110/220Volt power outlet.
17. Ensure that the USB cable is not connected to your computer.

18. When the restart is completed, use the USB cable to connect the DiaMobile XL to your computer.

Connecting the DiaMobile XL invokes the **Found New Hardware Wizard** to complete the installation.

The **New Hardware Wizard** window opens as soon as you connect the DiaMobile XL to a USB port on your computer.

19. Select **No, not this time** (as shown above).

20. Click the **Next** button.

21. Select **Install the software automatically**.
22. Click the **Next** button.

![Found New Hardware Wizard](image1)

The uEye camera installation starts.

23. Click the **Continue Anyway** button to continue.

![Found New Hardware Wizard](image2)

24. Click the **Finish** button.
25. The **New Hardware Wizard** window opens again. Select **No, not this time** (as shown above).

26. Click the **Next** button.

27. Select **Install the software automatically**.

28. Click the **Next** button.
Quick Installation Guide

29. Click the **Continue Anyway** button to continue.

30. Click the **Finish** button to complete the DiaMobile XL installation. **Congratulations your program has been installed successfully.**

If you encounter any problems whatsoever, please contact your local distributor.
