

SARINE PROFILE REPORTS FEE

Effective, December 6 2018

BASIC REPORT

The Sarine Profile™ Basic Report provides an engaging, interactive presentation of the diamond. The report includes high-level diamond images, video and interactive display, Hearts & Arrows display, and the diamond's Cut illustration (both still image and interactive display). The customer can add images, videos and additional information, such as third-party reports, to create a comprehensive, exciting digital report to support the entire sales cycle, from website to sales floor. This report can be customized according to customer request, allowing for a report design that reflects the look and feel of the specific brand. Available in digital format only.

DIAMOND JOURNEY REPORT

The Sarine Profile™ Diamond Journey Report presents the unique story of the diamond's journey. The report includes full details and visual interactive display of the rough diamond, the diamond as it appears during the various stages of the polishing process, and the final polished diamond. The report may include the complete story of the diamond, from the mine until fully mounted in a piece of jewelry, or alternatively the report may include just parts of the journey, according to customer request. Available in digital and printed formats.

ADDITIONAL SERVICES DEFINITIONS

Re-check

Per request, a re-evaluation of your diamond's grading results will be done. The re-check must be requested prior to item return.

Re-examination

A complete reappraisal of your diamond's initial grading report after the item is returned and report has already been issued.

Duplicate

Issue another copy of your report due to loss or damage of the original report.

Inscription

Have a personalized message, symbol, logo, or the diamond's report number inscribed on its girdle.

Cancellation

Cancelling a Sarine service will require cancellation fees. Cancelling will not be possible once the diamond was already inscribed or for items which require additional testing.

Shipment handling

Coordination of shipment and/or reception of diamonds with a designated courier.

Light performance finding report

Provides the light performance individual grades and total grade of a diamond. Sent via an excel file. Does not include any representation on a digital or printed report.

For information about Sarine products and services visit our website at www.sarine.com. Fees subject to change without notice.
